#### **J51A Acknowledging a QSO World Record**

As many will know, the [J51A Guinea-Bissau DXpedition](#) recently broke the world record total for DXpedition QSOs. The previous record belonged to **T32C Kiritimati** set in 2011.

Earlier today the planning team behind T32C messaged J51A with the following warm words of congratulations:

*Dear J51A Team,*

*The Planning Committee of the 2011 Five Star DXers' T32C DXpedition would like to congratulate the J51A team in surpassing our world record of 213,021 QSOs by a DXpedition.*

*This record has stood for 15 years and it is testament to your skills and dedication that you have achieved it in less time and with fewer operators. Well done!*

*73 Don G3BJ, Chris G3SVL, Gordon G3USR, John G3WGV, Don G3XTT, Bob MD0CCE – and not forgetting Neville, G3NUG (SK).*

**Kiritimati**  
(Christmas Island)  
**2011**

Kiritimati lies 232 km (144 mi) north of the Equator, 6,700 km (4,200 mi) from Sydney and 5,360 km (3,330 mi) from San Francisco. It counts as Eastern Kiribati for DXCC.

#### **5W0AF Samoa – postponed**

Jacek, SP5EAQ had announced he would be active from Samoa from 22 March to 11 April. He was set to fly via Doha (Qatar) and Brisbane, ultimately arriving in Apia to begin operating as 5W0AF. However, the geopolitical situation has shifted significantly since the initial planning. With the airspace of several countries (including Qatar) currently closed, the stability of the region remains uncertain even if routes were to reopen shortly. Consequently, Jacek has determined that the only viable solution is to re-route and postpone the DXpedition - likely until autumn. This will involve purchasing new tickets that avoid the Middle East entirely.

#### **CY0S Sable Island -update March 11**

Travel has begun for the CY0S team. Glenn W0GJ departed his home in Iowa in the very early hours of Wednesday morning, enroute to North Carolina to meet up with WA4DAN. Glenn is projected to arrive at the home of WA4DAN by late Thursday afternoon. On Friday, Glenn and Murray will go through the checklist of all gear. This includes the long ski bags with the antennas and Spider Poles. Each bag will be opened, inventoried and weighed to make sure all is accounted for. In the ski bags are the antennas, Spider Poles, guy rings with guy ropes already measured

and attached with 42-inch-long wood guy stakes for the loose sand on Sable. Glenn and Murray begin their long drive to Nova Scotia on Saturday morning with projected arrival by late afternoon on Monday. <https://www.dx-world.net/cy0s-sable-island-dxpedition-2026/>

**8Q7ZW Maldives -update March 11**

We are currently stranded in the Maldives. The situation in the world is making it difficult for us to return home.

Our expedition continues, but the cost of flights is extremely high – up to ten times the normal price – and at the moment – we cannot get out.

We would therefore like to kindly ask for your support or donation, which would allow us to stay here for a few more days until the situation improves. Accommodation prices are also rising, which makes the situation even more challenging.

We sincerely thank you for any help and support!

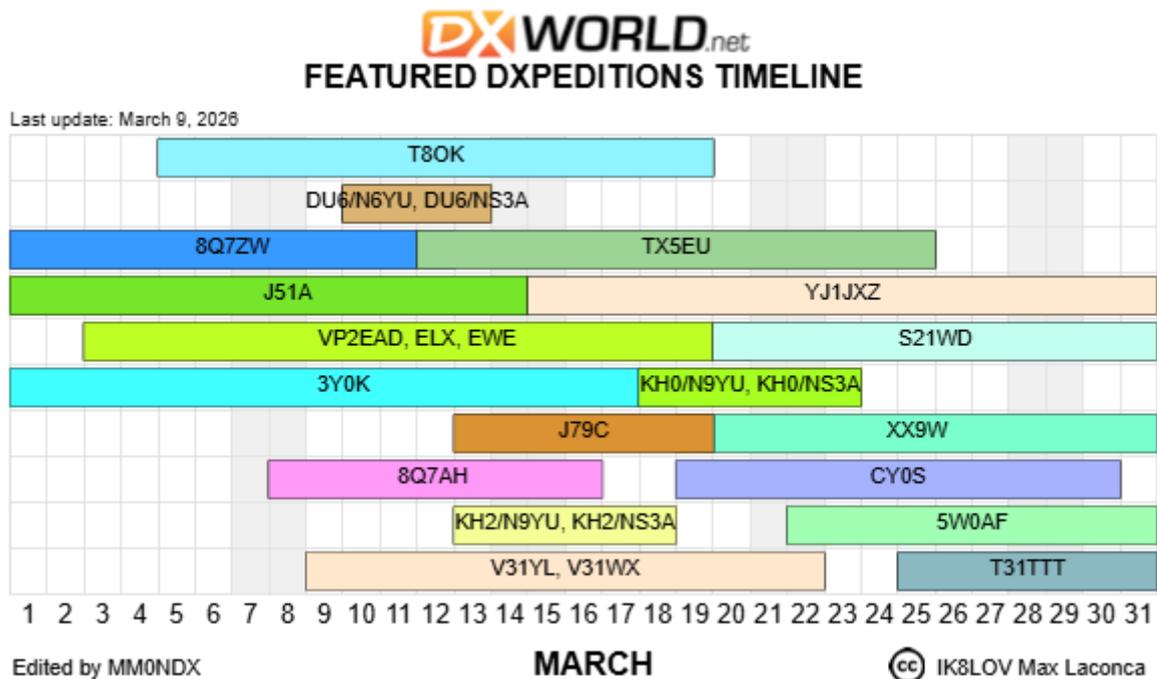

**T31TTT Kanton Island -update**

The upcoming T31TTT DXpedition to Kanton island is very likely going to be the last one for some considerable time.

Dom, 3D2USU lets us know that joining him and other Rebel DX Group members will be Government officials including an attorney general from Kiribati and a Ministry of Fishery and Environmental delegation.

They are changing the visiting rules very soon. After PIPA (Phoenix Island Protected Area) collapsed under the previous Govt, the new Parliament decided to move responsibility to the Ministry of Fishery and Environmental department(s). <https://www.dx-world.net/t31ttt-kanton-island/>
